

Bariatric Surgery Support Group

Support groups are a safe space for bariatric (weight loss) surgery patients to gain knowledge, meet other patients and get the encouragement and support needed for life-long success.

A variety of topics are presented to keep the support group exciting, informative, useful and welcoming. Some of the subjects discussed include nutritional and physical health, common struggles, mental health and spiritual well-being.

First Tuesday of every month | 5:30–6:30pm

Physician's Office Building
646 Virginia St., Suite 400
Dunedin, FL 34698
