

University of South Florida
FAMILY MEDICINE RESIDENCY

At Morton Plant Mease, Clearwater, Florida

Family Medicine Residency

Mission: Develop exemplary family physicians possessing the knowledge and skills to humanize medicine and provide high-quality, science-based, patient-centered, cost-effective health care

Vision: Advance superior health care by educating family physicians on how to offer an exceptional patient-centered experience, providing local leadership to the medical community and gaining national recognition for educational innovation and scholarly activities

Values: Our values are trust, respect and dignity and reflect our responsibility to achieve health care excellence for our communities

*Excellence and Advanced Technology
in an Amazing Location: Tampa Bay*

Where Are You Going?

Choosing a residency program is an important decision. Not only will it affect the next three years of your life, it will affect the course of your medical career. Many new doctors choose to build their practice close to where they complete their residency. So the location should appeal to you and your family. But location isn't the only important thing. The quality of the Family Medicine Residency Program — and its affiliated hospitals — should be high on your list of criteria for choosing a program.

Take a serious look at the University of South Florida (USF) residency program at Morton Plant Mease (MPM), located in Pinellas County on Florida's West Coast. It's a blend of quality hospitals, a superior Family Medicine Residency Program and weather that's hard to beat.

Beautiful Sandy Beaches • Five Professional Sports

We're Grounded in Medical Excellence

Nationally recognized for health care excellence, MPM is dedicated to providing community-owned health care services that set the standard for high-quality, compassionate care. Morton Plant Mease is comprised of four hospitals: Morton Plant in Clearwater, Mease Dunedin in Dunedin, Mease Countryside in Safety Harbor and Morton Plant North Bay in New Port Richey. This allows us to extend our quality health care reach across Pinellas and Pasco counties. Morton Plant Hospital, established in 1916 in Clearwater, is our largest health care facility with 687 beds.

Morton Plant Mease hospitals have been consistently named to the list of Top 100 hospitals. All four of the MPM hospitals have also been designated as Primary Stroke Care Centers by The Joint Commission.

Morton Plant Mease is part of BayCare Health System, which has the goal to provide patients with all the health care services they need through a network of 13 hospitals as well as outpatient facilities and services such as imaging, lab, behavioral health and home health. By working together, BayCare provides patients with a lifetime of complete, expert medical care. Today, tomorrow and every day, we're all about advancing superior health care.

Teams • Museums and Theatres • Shopping and Fine Dining

When You Join Our Team

Our Family Medicine Residency Program will help you gain the wisdom and practical knowledge you need to establish a fulfilling, lifelong career in medicine. You'll learn from the community's finest family medicine physicians and medical specialists who are board certified and uphold the strictest medical standards. Morton Plant Mease's state-of-the-art facilities and advanced technologies further ensure that your residency program will be on the cutting edge of today's ever-changing field of medicine.

To top it all off, our Family Medicine Residency's integrated, longitudinal Management of Health Systems curriculum will prepare you for the future of family medicine. You'll leave our program with a strong background in practice management, leadership skills and the practical tools to build a patient-centered medical home for your patients and their families.

Turley Family Health Center

As a USF–Morton Plant Mease resident, your education will revolve around Turley Family Health Center, a modern community-based facility in Clearwater. It's here that you'll learn the art and skill of practicing family medicine in a challenging and supportive environment.

Under the direction of family medicine faculty and preceptors, you'll assume responsibility for the total health care of patients, both individuals and families. You'll encounter the broad spectrum of family medicine, from birth to middle age to later life and death/dying.

to teach...
to learn...
to care...

Turley Family Health Center is equipped with:

- Conference room and lecture hall
- Medical library
- Thirty-six exam rooms
- Seven procedure rooms
- Ultrasound equipment
- Stress testing equipment
- Colposcopy equipment
- On-site laboratory and imaging services
- Spacious waiting rooms
- Electronic medical records
- Wireless Internet and network-enabled connection

Resources of a Major University

The Family Medicine Residency Program is further strengthened by the partnership with the University of South Florida (USF) in Tampa, which boasts one of the finest medical schools in the state. As a resident, you can tap into USF's extensive resources including its medical library and campus bookstore.

The Right Location to Launch Your Medical Career

As you can see, there's a whole lot more to the USF Family Medicine Residency Program at Morton Plant Mease than a pretty place. If you want an exceptional education in one of the country's best health care environments, look no further.

We're confident that USF and Morton Plant Mease will train, challenge and motivate you to reach your full potential as a family physician. And you'll achieve this while enjoying one of the most beautiful areas of the country.

Description of Curriculum

PGY 1:

- iPhone provided for each resident
- Meals provided at noon conference and when on call
- Lab coats
- Childcare facility on hospital campus
- Sick-child care on hospital campus
- Electronic medical record (inpatient and outpatient)
- Library resources available at Morton Plant Hospital and the University of South Florida
- Individual resident office space at Turley Family Health Center
- Moonlighting opportunities

Faculty Spotlight

Wanda Cruz-Knight, MD, MBA, FAAFP

Director
Family Medicine Residency
Associate Professor
University of South Florida
Morsani College of Medicine
Medical Director
Graduate Medical Education,
BayCare Health System

Medical degree

Case Western Reserve School of Medicine, Cleveland, OH

Residency

Rush University Illinois Masonic Family Residency, Chicago, IL

Other

MBA, Monte Ahuja College of Business, Cleveland State University, Cleveland, OH
Lean Healthcare Certification, Kent State University, Kent, OH

After completing her residency, Dr. Cruz-Knight joined the family medicine faculty at Rush University School of Medicine. She later accepted an opportunity with the Department of Human Services in Chicago as Chief of Primary Care for the Division of Mental Health where she realized the need for health care advocacy among health care providers.

In 2007, Dr. Cruz-Knight joined the University Hospital's Case Western Reserve Family Medicine Residency Program where her passion for working with medical students and residents grew. During her tenure she directed the Pre-doc Program, enjoyed working with residents as residency Director and grew as a leader in her interim role as Academic Chair.

Dr. Cruz-Knight's career experiences have fueled her interest in leadership and pipeline development, quality improvement, women's health and community outreach. She has received awards and honors for her professional achievements, as well as her civic activities, including University Hospital's Edgar B. Jackson Community Mentorship Award, America's Top Doctors and Cleveland Magazine Top Doc. In 2016, Dr. Cruz-Knight joined the faculty of the USF-MPM Family Medicine Residency as Program Director. Her mission is to promote excellence by training extraordinary family physicians and leaders in family medicine. On her days off she enjoys football, theater, and Boy Scout and outdoor activities with her husband and three sons.

What is your favorite poem?

*You are a child of the universe, no less than
the trees and the stars; you have a right to be
here. And whether or not it is clear to you, no
doubt the universe is unfolding as it should. . . .
Be cheerful. Strive to be happy.*

- Max Ehrmann

Elizabeth Lawrence, MD, FAAFP

Associate Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine
Clinical Assistant Professor
Florida State University
College of Medicine
Medical Director
Turley Family Health Center

Medical degree

University of South Florida, Tampa, FL

Residency

Family Medicine, USF-Morton Plant Mease, Clearwater, FL

Dr. Lawrence completed her residency training at the USF-MPM Family Medicine Residency, where she served as Chief Resident in her third year. Pursuing her love of teaching, she joined the faculty of the USF-MPM Family Medicine Residency. This has enabled her to remain in a stimulating academic environment, provide indigent care for the community and serve as a primary care provider. Dr. Lawrence's professional interests and responsibilities include pediatrics, women's health and medical student education.

She is Medical Director of the Turley Family Health Center and enjoys working on quality improvement projects with her residents and fellow faculty. Dr. Lawrence is also Chair of the Clinical Competency Committee and a preceptor for USF's Doctoring 1 course. In 2016, she was the recipient of the Florida Academy of Family Physician's Exemplary Full-Time Educator of the Year award.

Dr. Lawrence enjoys spending quality time with her two children and her husband, running half marathons and reading.

What is your favorite quote?

*"We are what we repeatedly do. Excellence,
then, is not an act but a habit."*

- Aristotle

Faculty Spotlight

Ted Farrar, MD, FAAFP, CAQSM

Program Director
Sports Medicine Fellowship
Associate Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

University of Louisville School of Medicine, Louisville, KY

Residency

Family Medicine, Dayton Community Family Practice,
Dayton, OH

Fellowship

Primary Care Sports Medicine, Halifax Medical Center,
Daytona Beach, FL

After completing residency, Dr. Farrar returned home to Louisville, Kentucky, and joined a single specialty private practice that was his family's medical home since he was a boy. He became Medical Director there and was responsible for the expansion of the practice into an underserved location. However, he continued to develop his passion for sports medicine that began in residency by continuing as a volunteer team physician for a local high school. Ultimately, he wanted to commit more time and improve his skills in sports medicine. He left his practice after seven years and completed a primary care sports medicine fellowship at Halifax Medical Center in Daytona Beach, Florida.

Dr. Farrar joined the faculty of the USF-MPM Family Medicine Residency in 2007. He was involved in the founding of the USF-MPM Primary Care Sports Medicine Fellowship in 2009 and has been the Director since 2012. He has an interest in helping residents prepare for the jobs of the future. He also has a professional interest in endurance medicine.

Dr. Farrar enjoys spending time with his wife of more than 20 years and their three children. They enjoy amusement parks and outdoor activities among other things. He is an active participant in multiple road races and triathlons.

If you were to change careers, what would you want to do?

Provide NBA color commentary.

Fred H. Brennan Jr., DO, FAOASM, FAAFP, FACS

Assistant Director
Sports Medicine Fellowship
Assistant Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

University of New England College of Osteopathic Medicine,
Doctor of Osteopathic Medicine, Biddeford, ME

Residency

Family Medicine, Albany Medical Center Hospital, Albany, NY

Fellowship

Northwest Ohio Center for Sports Medicine, The Toledo
Hospital, Toledo, OH

Dr. Brennan spent 12 years as an active duty Army physician after completing his sports medicine fellowship. He then joined the family medicine residency faculty as their Director of Sports Medicine at Womack Army Medical Center, Fort Bragg, North Carolina. In 2000, he transferred to the Fort Belvoir Family Medicine Residency Program serving as the Director of Sports Medicine for the residency and the Sports Medicine Fellowship Program. In 2004, he was selected as the Director of the military's Sports Medicine Fellowship Program, training four fellows per year. After almost 10 years in private practice and serving as the head team physician at the University of New Hampshire, Dr. Brennan recently returned to his passion for teaching at the USF-MPM Family Medicine Residency Program where he teaches in the residency and is the Assistant Director of the Sports Medicine Fellowship Program. He enjoys doing all outdoor activities with his five children and wife. He loves to run and participate in triathlons.

Having served more than 24 years in the military, engaged in two combat tours including a year in Iraq as a trauma physician in Baghdad, he realizes how precious life is. Exercise and laugh a little every day. Enjoy the simple things in life and be thankful for your family and friends. And be thankful for the freedoms you have as American.

What is your favorite quote?

"They may forget what you said—but they will never forget how you made them feel."

-Carl W. Buehner

Faculty Spotlight

Tracy Johns, PharmD, MS
PGY1 Pharmacy Residency
Program Director
Associate Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Doctoral degree

Pharmacy, University of Florida, Gainesville, FL

Residency

Internal Medicine Pharmacotherapy, Florida Hospital,
Orlando, FL

Other

Master of Medical Sciences – Clinical and
Translational Research
University of South Florida, Tampa, FL

Teaching family medicine residents as well as medical and pharmacy students at Florida Hospital led Dr. Johns to academia, where he served as Assistant Professor of Pharmacy Practice at Auburn University School of Pharmacy. He joined Morton Plant Mease in 1996 and has been faculty with the USF-MPM Family Medicine Residency at the Turley Family Health Center since 2000.

What gets you motivated in the morning?

Making a difference in the lives of those around me.

Jeffrey J. Sourbeer, MD, MBA, FAAFP
Associate Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

Duke University, Durham, NC

Residency

Family Medicine, Medical University of South Carolina,
Charleston, SC

Other

Master of Business Administration, University of South Florida,
Tampa, FL

The son of a family physician, Dr. Sourbeer grew up believing the practice of family medicine is the essence of being a “real doctor.” He joined his father in private practice and a few years later, with six other physicians, formed what would become BayCare Health System’s first physician group practice, serving as Medical Director and President as it grew to more than 70 physicians in 35 locations across three counties. He simultaneously helped create the USF-MPM Family Medicine Residency. Dr. Sourbeer has served as Morton Plant Hospital’s Medical Staff President and as Chair of the Department of Family Medicine. He serves on various committees and as a reviewer of medical liability cases on behalf of BayCare physicians. He has been selected as one of Tampa Bay Magazine’s “Top Docs” annually for a number of years.

Dr. Sourbeer oversees practice management, geriatrics, surgery and systems-based practice curricula. He is interested in implementing new technologies in the family medicine office.

His wife is a Pinellas County school nurse, and they have a son and daughter. Dr. Sourbeer enjoys camping, fishing, target shooting, travel and economic analysis.

If you were to change careers, what would you want to do?

Become a product tester for camping, hunting and fishing gear.

Faculty Spotlight

**Oliver Oyama, PhD, ABPP,
PA-C, CAQ-PSY**

Associate Director
Family Medicine Residency
Professor
University of South Florida
Morsani College of Medicine

Doctorate degree

Clinical Psychology, Indiana University, Bloomington, IN

Other

Family Medicine Faculty Development,
Duke University, Durham, NC
Master of Health Sciences - Physician Assistant,
Duke University, Durham, NC
Certificate of Added Qualification in Psychiatry

After earning his doctoral degree in psychology, Dr. Oyama worked as Program Director of the Pain Therapy Center at Richland Memorial Hospital in Columbia, South Carolina, and with family medicine and orthopedic residents at the University of South Carolina. He became Clinical Director of the Avalon Center, the community mental health center in Milton, Florida, before joining the Duke University Family Medicine Residency in Fayetteville, North Carolina, as the Director of Behavioral Medicine. After a number of years teaching, Dr. Oyama desired to learn more about biomedicine and completed the Duke University Physician Assistant (PA) program, receiving a master's in health sciences and PA certification. As part of a rural health loan repayment, he worked as a family medicine PA in a large rural health center and as a psychiatric PA in a community mental health center in North Carolina while keeping a psychology private practice on weekends.

From there Dr. Oyama joined the USF-MPM Family Medicine Residency. He is double boarded in clinical psychology and clinical health psychology and has a Certificate of Added Qualification in Psychiatry. Dr. Oyama's clinical time is divided between clinical psychology and family medicine. He practices and teaches using the biopsychosocial model of integrative medicine. He is proud to have been involved with developing the residency's Leadership for Life curriculum. Dr. Oyama is a frequent national speaker on primary care psychiatry and has published journal articles and a book on behavioral health in primary care.

He is married, has three children and enjoys family time, sailing, fishing, cooking, music, motorcycling and travel.

If you could wake up anywhere in the world, where would it be?

South Pacific in a hut on stilts over clear blue water with a forested mountain range not too far from the white sandy beach.

**Wayne Anderson, MD, MPH,
DiMM, FAAFP**

Assistant Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

University of Alabama at Birmingham, Birmingham, AL

Residency

Family Medicine, USF-Morton Plant Mease, Clearwater, FL

Other

Master of Public Health, University of Alabama, Birmingham, AL

After graduating from medical school, Dr. Anderson entered the USF-MPM Residency Program where he served as Chief Resident. After residency, he worked in many capacities including as a hospitalist at Morton Plant Hospital.

Dr. Anderson was tasked with developing and expanding the palliative care program at Morton Plant Hospital. He was instrumental in turning the little-known program into a thriving service that provides much needed care to patients with severe, debilitating diseases.

Dr. Anderson joined the USF-MPM faculty in October 2013. He is currently responsible for the ER, critical care, wilderness medicine, procedure and inpatient medicine curriculums. Dr. Anderson serves in the U.S. Army Reserves as a family physician. He has been deployed to Afghanistan and various locations across the U.S. With his military background and his own personal interest, he has acquired advanced training and certification in wilderness and austere medicine. Dr. Anderson has completed the Diploma in Mountain Medicine through the Wilderness Medical Society. He currently serves as the Director for the Wilderness Medicine Track.

He enjoys scuba diving, camping and hiking.

What is your favorite quote?

"The mountains are calling and I must go, and I will work on while I can, studying incessantly."

-John Muir

Faculty Spotlight

Daniel Chernaev, MD

Assistant Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine
Medical Director
The Women's Center at
Turley Family Health Center

Medical degree

Medical University of Sofia, Bulgaria

Residency

Family Medicine, Physicians Medical Center Carraway,
Birmingham, AL
Family Medicine, Memorial University Medical Center,
Savannah, GA

Fellowship

Obstetrics, Lincoln Medical and Mental Health Center,
New York, NY

Dr. Chernaev completed medical school in Sofia. In 2001, he decided to continue his training in the United States.

Following the successful completion of his ECFMG exams, Dr. Chernaev began an internship at the Physicians Medical Center Carraway in Birmingham, Alabama. He transferred to Memorial University Medical Center in Savannah, Georgia, to complete his family medicine residency.

With a special interest in surgical procedures and obstetrics, Dr. Chernaev joined the obstetrics fellowship at Lincoln Medical and Mental Health Center in New York City, New York. This intense and demanding fellowship prepared him well for operative obstetrics, which he enjoys. Dr. Chernaev's special interests include operative obstetrics, preventive medicine and minor surgical procedures. On a more personal note he enjoys traveling and music.

If you could change careers, what would you want to do?

Be a professional athlete. I enjoy track and field, especially short distance running and sprint.

Charisse Huot, MD

Assistant Director,
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

University of Florida College of Medicine, Gainesville, FL

Residency

Family Medicine, USF-Morton Plant Mease, Clearwater, FL

Dr. Huot attended college and medical school at the University of Florida and completed residency training at the USF-MPM Family Medicine Residency Program. During her residency, she completed a yoga teacher training course at the Yandara Yoga Institute and became a certified yoga instructor (RYT-200). She then instructed a weekly yoga class for the Family Medicine residents and clinical staff at Turley Family Health Center. She also served as Chief Resident during her third year.

Upon completing residency in 2010, Dr. Huot joined a large group practice in Clearwater. After several years cultivating a busy outpatient-based practice, she felt a strong calling back to academia and teaching. In 2015, she began working as a community preceptor with the USF-MPM Family Medicine residents in their clinic a few days per month. In 2018, she transitioned to a full-time faculty position with the program to fully pursue her teaching passion. Her professional areas of interest include geriatrics, women's health and functional medicine. She also serves on BayCare Health System's Quality and Safety Committee.

In her downtime, Dr. Huot enjoys family time with her husband and two daughters. They love camping and exploring Florida's state parks. She practices Ashtanga yoga, and also enjoys running and weightlifting. Her other interests include reading, needlepoint, cooking and nutrition.

People would be most surprised that you... *Started residency just six weeks after my youngest daughter was born. I guess you could say I really like a challenge! Luckily, with the support of my amazing husband and this residency program, I did just fine.*

Faculty Spotlight

Julia C. Jenkins, MD
Assistant Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

University of South Florida, Tampa, FL

Residency

Family Medicine, Bayfront Medical Center, St. Petersburg, FL

Dr. Jenkins has lived in various parts of Florida throughout her lifetime, and she is a proud University of Florida Gator alumni. In 2008, after residency, Dr. Jenkins joined BayCare Medical Group as an outpatient family medicine physician at a small office in Palm Harbor, Florida. She also worked in various BayCare Urgent Care centers part-time, and for many years she was the team doctor for a local high school varsity football team. Dr. Jenkins served on the Board of Directors for the Florida Academy of Family Physicians from 2013 to 2015, and she continues to be an active FAFP member and leader.

Teaching has always been her primary passion, so in 2016 she left her practice to become full-time faculty at the USF-MPM Family Medicine Residency Program. Dr. Jenkins' clinical interests include nutrition, cardiovascular disease, sports medicine, geriatrics and practice management. She has enjoyed returning to inpatient medicine at Morton Plant Hospital while working with the residents, and she also has fun managing the residency's Facebook page.

Outside of work, Dr. Jenkins enjoys spending quality time with her twin boys and her husband. She loves running, kayaking, hiking and watching Gator football.

What is your favorite quote?

"Carpe diem [seize the day]."

- Horace

Manuel Reyes, MD, MPH
Assistant Director
Family Medicine Residency
Assistant Professor
University of South Florida
Morsani College of Medicine

Medical degree

Indiana University School of Medicine, Indianapolis, IN

Residency

Family Medicine, Cook County Hospital, Chicago, IL

Fellowship

Obstetrics and Family Medicine, University of Washington, Spokane, WA

Other

Certification from the American Board of Integrative Medicine
Certificate of Added Qualification in Adolescent Medicine
Certificate in Business Administration
Master of Public Health, University of South Florida, Tampa, FL

Dr. Reyes returned to his birthplace of Puerto Rico upon finishing his residency, where he practiced for five years in a migrant-based facility and in a hospital-based practice. When circumstances required a move back to the States, he completed a fellowship in obstetrics. Dr. Reyes practiced as a full-time clinician until assuming his present faculty position with the USF-MPM Family Medicine Residency in 2000.

What words of wisdom can you share?

Advancement of the accessibility of health care for all is so very important – which is why I chose to work in community health centers and migrant farm workers' facilities before coming to the residency program.

Faculty Spotlight

Jamie Harrington
Manager, Graduate Medical
Education

Jamie earned her Bachelor of Arts in English from William Jennings Bryan College in Dayton, Tennessee, where she met her future husband, a native Floridian. After getting married, they settled in his hometown of St. Petersburg, Florida, and Jamie has been enjoying the Florida lifestyle ever since. After spending most of her career in the medical field, with a brief foray into computer-based training, Jamie joined the USF-MPM Family Medicine Residency as a residency assistant. She spent 12 years in that capacity learning family medicine curriculum as well as ABFM and ACGME requirements. Currently, Jamie serves as the Graduate Medical Education manager overseeing the administrative staff and the day-to-day operations of the educational aspects of the program. She is also a member of the Association of Family Medicine Administration.

Outside of work, Jamie enjoys spending time with her husband of more than 25 years and their two teenage sons. Together, they enjoy attending sporting events, traveling and church activities.

If you were to change careers, what would you want to do?

Be an author, editor or antiquarian book dealer.
